

# ABOUT HIGH PEAKS CONSULTING

## SAP SECURITY SPECIALISTS

### TECHNICAL KNOW-HOW TO SECURE ANY SAP ENVIRONMENT

High Peaks Consulting is a professional services organization with a rich solutions portfolio focused on SAP Security. With our team of Platinum level consultants and connections with high level talent across North America, we are well positioned to tackle the most pressing issues in any SAP environment. Through our industry partnerships, our ability to provide innovative solutions grows daily.

**AGILE & ADAPTABLE**

**EXPERIENCE & EXPERTISE**

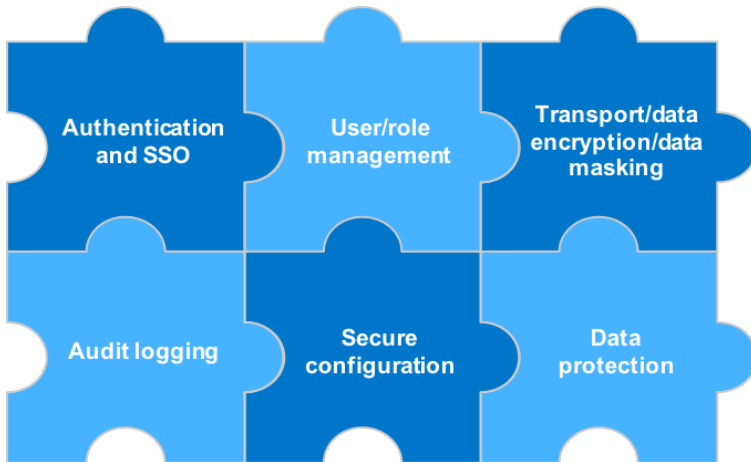

**EXTENSION OF YOUR TEAM**

Maintaining a clean, compliant security architecture is becoming increasingly complex in SAP environments. High Peaks Consulting can simplify the process.

## HPC | An Extension of Your Team

Our SAP Security Professionals are experienced in the entire suite of SAP products. We are leaders in the SAP Security community, growing beyond SAP to include security spaces that impact our customer's risk posture and how to avoid unintended breaches based on poor practices and lack of clear vision.

You need a partner, not just an outsourced vendor.

## HPC for Security

Maintaining a clean, compliant security architecture is becoming increasingly complex in SAP environments. HPC provides flexible solutions for security administration through a triad of offerings: Security Assessment and Remediation Services, Architecture Design & Implementation and CUA Deployment Services.

Our experience covers a wide range of enterprise level industries, and dozens of SAP Security implementations.

## Consultants Based Where You Are

We deliver the difference of quality with our American and Canadian based consultants. Our passionate team are certified experts in SAP and ERP environments, and have years of experience in the diverse requirements of different industries.

They work tirelessly around our clients' clocks and timelines to assess specific business requirements and ensure the tailored solution meets all your business goals.
